GLUS PROJECT SHOOTING

JAKARTA-BANDUNG HIGH-SPEED RAILWAY PROJECT IN INDONESIA (WHOOSH HSR)

Gulis, as a professional enterprise specializing in rebar connection technology, supplied high-strength and high-precision mechanical rebar splicing sleeves (such as straight-threaded couplers) for the Jakarta-Bandung High-Speed Railway Project. These products were used for structural rebar connections in bridges, tunnels, and track foundations.

NAM THA 1 HYDROPOWER PROJECT IN LAOS

As a professional rebar connection technology company, Gulis supplied high-strength threaded rebar couplers (including rolled straight-threaded couplers and upset straight-threaded couplers) for the project. These were used for rebar connections in concrete structures such as dams, powerhouses, and tunnels.

SOKHNA SECOND CONTAINER TERMINAL PROJECT IN EGYPT

GLUS supplied threaded rebar couplers (including rolled straight-threaded and upset straight-threaded couplers) for critical structural connections in wharf foundations, pile caps, beams/slabs, and quay walls.
